AGRO INNOVATION LAB – GROW WITH US!

Agro Innovation Lab (AIL) aims to shape the future of agriculture since 2016. Its mission is to foster new technologies and strategies to increase efficiency, save resources and making farmers lives as well as those from consumers and end-customers easier.

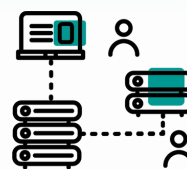

This **webinar** shows how the **Agro Innovation Lab** has implemented its vision so far and which upcoming activities in sustainability, robotics and digitization invite start-ups to cooperation.
